

## Your X-Air

1200 X-Airs are currently flying over the world, making the happiness of their [owners](#). If yourself are one of these happy pilots, [contact us](#), to tell your experiment! We will publish your history in these line, in one of the next issues of X-AIR NEWS.

## Focus ... X-Air dealers in the world

Gradually and within 12 years, Randkar succeeds to build a network of dealers, all over the world. Today, they are about 30, and 22 in France. Those pilots help you in your passion, answering your problems, helping to find the good solution when you are seeking a new aircraft, or for any advice. You will find

the dealers' list on our website. Have a look to [this link](#), you will be able to know if one of them is located close to your aeroclub. He is qualified to inform and advise you, and know everything about the 3 axis range, with its 1.200 units already sold.

## An outdoor art festival near Randkar's field in France

During this summer, artists from every parts of the world make an original festival in the estuary of the french river La Loire. Between Nantes and Saint-Nazaire, on the west coast of France, works of art are scattered all along the river. Some of them are quite huge, like a house attached to a buoy in the middle of the 3 kilometers broad estuary.

There are about 30 amazing creations of artists, making the region very attractive during the period of exposure. The Randkar aerodrome is located in this area of 60 kilometers of river. We propose a 30 minutes overflight of the festival. Come to our field to have a look at this strange and astonishing event.

## Bad weather for our event of June

On last June 24 proceeded the 2nd edition of the day "To give wings to SNSM", the french association of sea rescue, on our aerodrome of Frossay (44). The objective of 500 first flights between 9 a.m. and 21pm was certainly ambitious but completely realizable. Unfortunately, the weather came to play the spoilsports. Only 70 baptisms could be realized, between the downpours and the gusts, sometimes violent.

Not enough to give up our desire for renewing this record next year. Rendez-vous is taken on sunday 29 june 2008.
